The Mullahs have money for their terror networks around the world and their terrorists can target innocent people as far as [Buenos Aires](#).

They have money for terrorising the Americans in the Middle East & around the world.

They spend billions a year on creating, funding, arming & supporting the [Hezbollah terror network](#) of Lebanon.

They spend millions to build school, roads & hospitals, shopping malls & even highways for the thugs & the shia fanatics in Lebanon.

They spend millions on [Hamas](#) and other terrorists organisations in Palestine.

They spend millions on [Moghtada Al-sadr](#) & his terrorist group [Al-Mahdi brigade](#) in Iraq.

For the past [28](#) years, the Syrians received unlimited free oil from the Mullahs of Iran.

The Mullahs are spending billions on building nuclear bombs to further terrorise the world.

The Mullahs and their families have stolen billions of our oil money and they continue to do so.

... Yet ...

No money for [750.000](#) homeless children in Iran.

No money for the poor and needy in Iran.

No money to rebuild the Iranian oil refineries.

No money to modernise Iran's dated telecommunication systems, hospitals, schools, colleges and roadways.
No money for the [earthquake victims](#) in [Bam](#).

... And ...

No money for rebuilding cities such as [Khorramshahr](#) which were destroyed in the 8 year long Iran Iraq war.
